Application/Control Number: 09/888,009

Art Unit: 1754

Allowable Subject Matter

1. Claims 1-20 are allowed.

2. The following is an examiner's statement of reasons for allowance: The instant application is allowable over the cited prior art, because the cited prior art fails to disclose an exhaust gas purifying catalyst comprised of a composition including a first catalytic component of a composite oxide containing zirconium and manganese and/or cobalt and a second catalytic component of zeolite; wherein the zeolite is a proton zeolite or is modified with at least one element selected from the group consisting of cerium, lanthanum, phosphorus, boron, gallium, magnesium, and mixtures thereof.

Kato et al. discloses a catalyst containing Cu and/or Co supported by Zr oxide and a Cu-substituted zeolite (see abstract and p. 2, lines 38-39). However, it does not disclose or suggest either a composite oxide containing zirconium and manganese or a proton zeolite or a zeolite modified with cerium, lanthanum, phosphorus, boron, gallium, magnesium, and mixtures thereof. Tamura discloses a hydrogenated zeolite catalyst or hydrogenated zeolite catalysts with one or more metals. However, it is silent on the use of composite oxides containing zirconium and manganese.

Furthermore, the Declaration filed by Mr. Tatsuya Yoshikawa describes wherein the catalyst of the instant invention exhibits a higher nitrogen oxide conversion rate than the catalysts as taught by the instantly claimed prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Art Unit: 1754

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonas N. Strickland whose telephone number is 571-272-1359. The examiner can normally be reached on M-TH, 7:30-5:00, off 1st Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
